

STATE HAS BEER  
LICENSES READYBut Excise Head Warns Holders  
Against Violation of Federal  
Laws.

ALBANY, May 26.—Herbert S. Sisson, State Excise Commissioner, announced today that under the new Beer Law he will issue licenses to sell 2.75 per cent. beer to any one whose premises are not in territory now "dry" by local option vote.

"The issue of such certificates, however," he said, "is not a guarantee by the State that liquor may be sold under them without violating either the Wartime Prohibition Act, which will continue until the consummation of peace with Germany, or the provisions of the Volstead act, enacted under the authority of the Eighteenth Amendment, which is now the subject of litigation in the Supreme Court of the United States."

"Persons holding Federal permits for the sale of liquor must also hold a State liquor tax certificate, if the kind of traffic they carry on is covered by any form of State certificate. This applies particularly to pharmacists selling liquor on physicians' prescriptions. A pharmacist in a dry town who sells liquor on prescription violates the State law, even though he holds a Federal permit."

Labor Federation Asks Congress to Repeal Volstead Law.

WATERBURY, Conn., May 26.—A resolution calling upon the Congress to repeal the Volstead law and urging that the next Connecticut General Assembly enact a law to permit the manufacture of 2.75 beer was adopted by the Connecticut Federation of Labor in annual convention here.

No 2.75 Beer Until Peace Is Declared.

Until wartime Prohibition is annulled brewers will not manufacture or sell 2.75 per cent. beer as provided by the Walker law signed by Gov. Smith, according to William H. Hirst, attorney for the New York Brewers' Association.

VANCOUVER, B. C., May 26.—The death of Capt. John Johncox, who once attempted to thrash the late King Edward of England, then Prince of Wales, was reported here to-day.

During the regatta at Cowes, in 1880,

Johncox was crossing the yachtsmen's green after dark when some one on a bench thrust forth a foot and tripped him. The captain started after the tripper and a hot fight was in progress when the Prince's identity was discovered and the battle ended.

A long drawn-out  
fight against fatigue

Is the human mechanism equal to the strains of modern life?

TWENTY per cent more flat feet among city men than among men from the country districts—

Thirty per cent more defective vision—  
The death rate twenty-one per cent higher in the city than in the country—

These are facts taken from the report of the Surgeon-General of the United States Army on the first million men who were drafted, and from vital statistics given in the most recent census reports.

Resistance to disease is always dangerously weakened by fatigue, the greatest enemy you have in your work today. "The struggle of business in city life is a long drawn-out fight against fatigue. You dare not rest for fear of being left behind. But gradually fatigue slows down your pace—

your energy is gone," says Dr. William Brady.

A certain amount of fatigue is necessary, but many people waste their precious energy.

Every step with leather heels or "dead" rubber heels on hard pavements acts as a hammer blow to the delicate nervous system. The constant repetition of the 8,000 steps you take a day tends to exhaust you.

You cannot change the pavements but you can change your heels. O'Sullivan's Heels absorb the shocks that tire you out.
